

Strong ramps – high strength **Excellent ramp kits**

We often get questions regarding the strength of our ramp kits: “My power wheelchair weighs 992 lbs, is it safe to use it on your doorstep ramps?”, “Can the ramp stand a car?”, “Is the ramp kit strong enough for a lawn tractor?” etc. The answer is simple: YES!

An unusual pressure test has been performed in association with the Danish defence forces armoured division. The result speaks for itself.

A combat ready Leopard Tank with a weight of 62 tonnes climbed an Excellent ramp leaving nothing but dirt from the caterpillars.

Test result: **Excellent !**
