with style and confidence.

Premium
Flip up bars

For the look and for your security.

The Elcoma flip up safety bar comes in a variety of colors and finishes. A major benefit of the flip up bar is that it can be folded out of the way in order to allow easy access by wheel chair or by walker. Its usefulness is extremely helpful in situations where a sidewall is not available to mount a conventional style grab bar. And it can be placed on any part of the wall surrounding the toilet in order to meet the specific needs of the individual. Optional toilet paper holders are available for all models.

Floor mounted support columns

In-wall support columns are available to use when sufficient wall backing is not available. The in-room support columns are to use when there is no side wall present in order to attach a traditional grab bar. They are available for the **96, 97** and **99 series** flip ups.
