

# Above-Floor-Rough Shower Pans

Bestbath™ is excited to announce a new shower pan designed to replace tubs with above-floor-rough plumbing. Its unique design provides clearance between the pan and flooring so the drainpipe can be routed without the expense of drain relocation. The simplicity of installation along with Bestbath's manufacturing quality makes this a near perfect replacement for tubs.

Stepping in and out of a tub is not only hazardous, but prevents many people from bathing at all. Bestbath's new above-floor-rough shower pan makes showering safer and more enjoyable. The 6 ¾ inch threshold height makes entry and exit safer, reducing the possibility of slipping or falling.

Tub cut outs can be difficult to access and force users to step through a narrow opening while attempting to reach a grab bar.

Now you have access to an affordable solution to replace old tubs. Bestbath's above-floor-rough pan is safe, easy, and quick to install and its quality and durability translate to minimal maintenance. The pan provides versatility and can be used with the wall surround material of your choice, including Bestbath composite walls, tile, or cultured marble. Our pans are made to replace a typical bathtub and the drain location can be customized based on existing plumbing configurations.

# Shower Pans

Bestbath shower pans provide your commercial, multi-family, or residential project with an innovative and cost-effective solution that will maintain its beauty and provide years of use. Our shower pans are designed to fit into almost any application and feature quick and easy installation to keep you on schedule and on budget.

Bestbath is the expert in safe bathing offering solutions that are beautiful, functional and safe. Backed by over 50 years of experience and a 30-year limited warranty, you can confidently turn to Bestbath for your next project.

For easy and precise installation, all Bestbath shower pans are pre-leveled at the factory, do not require mud setting, and are installed directly on the subfloor. Not only is installation quick and efficient, but the durable gelcoat finish will last for years with minimal maintenance.

Unlike tile floors, Bestbath one-piece shower pans are durable and do not require costly maintenance. No more worrying about possible leaks and water damage. You can achieve a balance of beauty and utility when a Bestbath shower pan accompanies tile walls.

With Bestbath you get personalized service with a dedicated representative. Shorter lead times, better service, and no hassles are just a few of the benefits you'll enjoy with Bestbath. Combine this with our world-class products, and there's no problem we can't solve and no solution we can't provide for your next project.

## Above-Floor-Rough Pan Benefits at a Glance:

- Designed for post-tension floors with above-floor-rough plumbing
- Fast, easy installation
